EXECUTIVE BRIEF - NOVEMBER 2026

Prepared For Marcus Reyes, VP of Sales
Southwest Office Solutions

RECOMMENDATION - FY2026 ACCOUNT SERVICE POLICY

Cap discounts by tier to turn Inside Sales profitable

Applied to 2022–2025 orders, caps would have lifted net contribution nearly 5×, to an estimated $115,258.

Net contribution, 2022-2025	Inside Sales net contribution	Accounts at the 15% gross margin target	Average gross margin
$115.3K est.	**+$45.9K** est.	**62%** est.	**16%** est.
from $23.3K today	from **-$16.8K** today	from 48% today	from 11%, now above 15% target

1 THE PROBLEM

More than 1 in 3 Inside Sales accounts lose money

Their losses outweigh the +$2,792 earned by the other 226 accounts, leaving the whole tier at −$16,822.

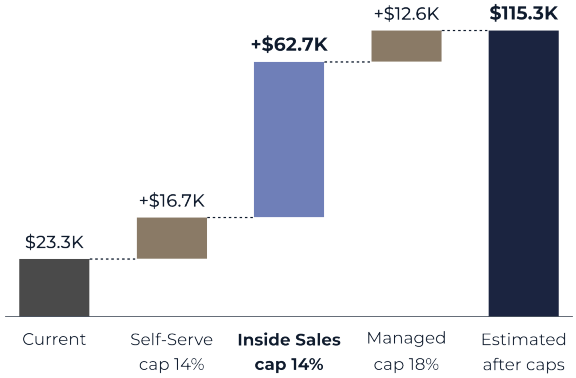

133
of 359 accounts (37%) have negative net contribution

−$147
average loss per account, −$19,614 total

2 THE PAYOFF

Inside Sales would drive 68% of the $92K gain

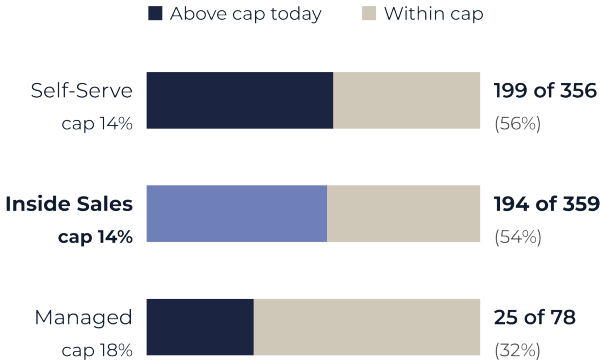

Net contribution by tier, current to estimated after caps.

3 WHO IT AFFECTS

Caps would lower discounts for 418 of 793 accounts (53%)

Accounts with average discount above their tier's cap today.

4 THE DECISION

Approve tier discount caps for FY2026

Self-Serve	Inside Sales	Managed
14%	14%	18%

- **Start with an Inside Sales pilot,** where 68% of the gain sits.
- **Track order volume monthly** against the 2022-2025 baseline
- **Extend to Self-Serve and Managed** accounts once volume holds

Key Assumption: order volume holds after caps. If customers buy less, the gain shrinks.

DATA ANALYZED

- Account-level analysis of 793 accounts, Jan 2022–Dec 2025; five records excluded for missing key data.
- Company targets: 15% gross margin; $500+ net contribution per managed account (2022–2025).
- Service policy supplied by client's Finance department.
